STATEMENTS IN ACCORDANCE WITH 37 C.F.R. § 1.825

**Mail Stop PCT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In accordance with 37 C.F.R. § 1.825, applicants submit herewith a Substitute Sequence Listing via EFS-Web 1.1. The Substitute Sequence Listing is being submitted to comply with the outstanding Notification of Defective Response, mailed October 24, 2006. In particular, the Substitute Sequence Listing is being submitted to correct the errors identified on the "Raw Sequence Listing Error Report" (dated August 28, 2006) (copy submitted herewith) prepared by the Biotechnology Systems Branch of the Scientific and Technical Information Center ("STIC") of the U.S. Patent and Trademark Office ("USPTO"). In accordance with 37 C.F.R. § 1.825, applicants submit that the Substitute Sequence Listing contains no new matter.

The undersigned has confirmed with a representative of the Electronic Business Center ("EBC") of the USPTO that submitting a Sequence Listing via EFS-Web 1.1 as an ASCII text file is sufficient, so that applicants are not required to *additionally* file a "paper" or "compact disc" or "computer readable form" (e.g., a 3.5" diskette) of the Sequence Listing. The EBC representative also confirmed that a Sequence Listing submitted via EFS-Web 1.1 could be filed under a general transmittal, and that it was not necessary for applicants to submit a statement confirming that the Sequence Listing on paper copy and computer readable form are identical.

Respectfully submitted,

Date: **November 22, 2006**
